---

*Congregations and congregants working together to restore Earth and renew Spirit.*

The UUA Office of Congregational Stewardship Services' Green Sanctuary Program will be mailing copies of the interfaith film, *Renewal*, along with a study-guide to all congregations in the fall.

This is great tool to raise awareness about how other faith communities are standing up for the environment and can be used to inspire discussion and action related to environmental justice, climate change education, and participation in the International Day of Climate Action.

Learn more about how the film is being used by communities across America to help build the religious-environmental movement at <http://renewalproject.net/>

Look for your congregation's copy in the mail in late September.

To a greener faith-community and world,

*Robin Nelson*
