

Take this eye test:

The UU
World
is free
on tape
for people
who cannot
read print

like this even when they wear glasses*

*many printed materials are written in print this size

People with macular degeneration, diabetes, or other health conditions, may have enough visual acuity to do many things, but their eyesight is not good enough for them to read regular print materials. If you know anybody like this, please let them know they qualify for a free *UU World* subscription on audiotape. It is as simple as contacting us by letter, phone, or email: access@uua.org

Accessibilities, UUA, 25 Beacon St., Boston, MA 02108
