

# 1. Introduction

Thank you for participating in the Youth and Young Adult Empowerment Resolution survey. Your responses will help provide insight into our denomination's progress in this ministry and help us become more welcoming and more empowering of our multigenerational community. Many people are working hard to improve ministry to and with youth and young adults in a variety of ways. Through this survey, please let us know which ways are working in your organization, committee or district.

In order to complete the survey, others in your organization, committee or on your team may need to provide you with responses to some of the questions. Once information is gathered, the survey response time will vary, depending on the content of your answers.

In this survey, the term "youth" refers to those aged 13-18 inclusive and the term "young adult" refers to those aged 18-25 inclusive. As you may know, the age ranges for youth and young adult programs at the continental level have historically been defined as 14-20 and 18-35, respectively. However, for the purposes of this survey, narrower ranges are being employed. You will be given the opportunity to view the results of the survey upon completion. If you have any questions about this process, please contact UUA Vice President Kay Montgomery at [kmontgomery@uaa.org](mailto:kmontgomery@uaa.org) or 617-948-4304.
