

Braided Dog Toy

Cut fleece, old sweat-shirts, or old jeans into strips.

Take three strips and tie the ends into a knot, then braid the pieces together.

Tie off the other ends.

Toilet Paper Tube Cat Toy

If there is any toilet paper left on the empty tubes, peel off as much as possible.

At one end of the toilet paper tube, use scissors to make slits about an inch long all around, trying to keep the slits as even as possible.

After you finish that end of the toilet paper tube, flip it over and do the same thing to the other end.

When the ends are all cut, splay out the ends of the toilet paper tube. Each end will look like a wheel with spokes.
