

## **Business Resolution General Assembly Planning Committee**

The Commission on Institutional Change, in their report, "Widening the Circle of Concern," recommended that the Board of Trustees examine the bylaws of the Association with the purpose of streamlining and clarifying the Association's governance structure.

The Board of Trustees has proposed a multi-year process to rewrite the Association's bylaws.

One of the guiding principles of the proposed bylaw revision is to separate the governance responsibilities of the elected Board of Trustees (and their committees) from the implementation responsibilities of the Association staff and staff volunteers.

Over the decades, the planning and implementation of General Assembly has required professionalized staff. For example, the General Assembly and Conference service director negotiated contract changes with hotels and conference centers throughout the pandemic.

The General Assembly Planning Committee has not held a governance role in many years. Increasingly, the General Assembly Planning Committee has focused on questions of implementation rather than governance. As such, the GAPC no longer appropriately belongs in the bylaws.

Additionally, having to shift first to completely virtual General Assemblies due to the pandemic, and now to multi-platform modalities, requires a committee structure that is flexible and able to recruit volunteers with the skills needed for events as they change.

The Board of Trustees extends sincere gratitude to the many General Assembly Planning Committee volunteers who, over the years, worked to provide meaningful opportunities for Unitarian Universalists to gather and build community. Their efforts grew and expanded the General Assembly in wonderful ways. Many thanks to each of you for your ministry.

**BASED ON THE FOREGOING, NOW, THEREFORE, BE IT RESOLVED,**

**GENERAL ASSEMBLY 2022** hereby suspends until further notice the membership and activities required by the bylaws of the General Assembly Planning Committee. This action creates flexibility to explore more inclusive and innovative GA planning structures.
