

Lay Theological Education

Harlan Limpert

First Steps

- Reference how lay staff members can benefit from this effort
- Provide both endorsed and freshly contributed resources for lay theological education (infrastructure)
- Ministers and Lay leaders work together (UU University as a model)
- Create sub team of LTE taskforce which should be prepared to assess the following:
 - Spiritual practices
 - Encourage link people
- Engage lay and professional leaders
- Create infrastructure for the sharing of resources (with opportunity to review)
- Create a sub team to assess quality efforts, best practices, what can (and should be) replicated.
- Invite all here in a conversation via blog.
