**Unitarian
Universalist
Principles**

All people should
be treated fairly.

Each and every
person is important.

We accept all people
and we learn together.

Each person is free
to search for what is
true and right in life.

Everyone deserves a
say about the things
that concern them.

We believe in working
for a peaceful, fair,
and free world.

We believe in caring
for our planet Earth
and every living thing
that shares it with us.
