July, 2018

Dear friends,

We are in search! Theodore Parker Church is looking for a staff member to oversee our religious education programs, but we would like to spend this year (at least) exploring some new options, including: how best to respond to the changing needs of families, children, and youth; how best to become a truly multigenerational community – sharing music, worship, justice and arts together on Sunday morning, and other days, too; and, how to use outreach tools to share the good news of Unitarian Universalism.

The position is p/t, but exact number of hours are negotiable as we are looking for some outside-the-box thinking. If you've got ideas, give us a call!

Our ideal candidate is curious and collaborative, loves working with all ages, and prioritizes a multicultural lens. Familiarity with thematic church (Soul Matters Sharing Circle) is a plus, but not required. Responsibilities include: oversight of existing children and youth programs with an eye towards adaptive change; participation in Sunday worship; and, active participation in the staff leadership team. Everything else is negotiable!

This position is supervised by the Minister. Salary is based on Fair Compensation Guidelines. CORI screening is a required qualification for this position.
